

PROTECT YOURSELF

Cooperation mechanism to protect the environment

NEWSLETTER I

December 2020

Co-funded by the
Erasmus+ Programme
of the European Union

LET THE PROTECT YOURSELF PROJECT BEGIN!

Let us introduce the *Protect Yourself-cooperation mechanism to protect the environment* project co-financed by the Erasmus + program.

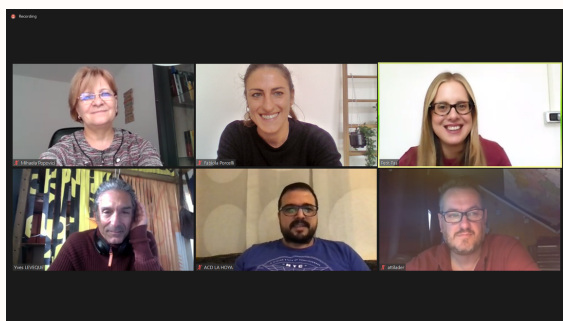

Thanks to this project 5 partners from Romania (ACTA CENTER, Spain (ACD LA HOYA), Hungary (KREATEAM) and France (GRAPHISTE DE L'OMBRE) started working together coordinated by the Italian organization PETIT PAS to create a series of tools and resources to support adult education and to contribute to the development and expansion of their professional and educational know-how in the circular economy.

WHAT HAPPENED IN THE FIRST 3 MONTHS OF THE PROJECT...

The creation of the **cooperation mechanism** thanks to the French partner GRAPHISTE DE L'OMBRE, a Facebook group open to everyone where it is possible to share news, discussions and debates on measures to combat climate change.

Partners met online during the first transnational project meeting, due to the impossibility of traveling.

The creation of the **project website** www.protectyourselfeu.com by the Spanish partner ACD LA HOYA where it will be possible to follow all the project activities, get in touch with the partnership and always be updated with the project developments.

The partnership started to disseminate the project, chose the official logo and under the suggestion of the French partner, started to collect good practices to know the cooperation mechanisms in each partner country. Interviews were conducted with members of various organizations dealing with the project theme, stakeholders and testimonies were collected in the form of short videos in which participants were asked what it meant for them or what actions in their daily lives they take to protect the environment.

If you are curious or want to get inspired you can find these short interviews on our **[YouTube channel](#)**.
